

SecurID Text Message Authentication

August 2021

The information below applies **exclusively** to information processed by SecurID for the purpose of delivering SMS-based One-Time Passcode (OTP) authentication services. 'SMS' is commonly known as 'text messages'. SecurID is an RSA business. This information is an extension of our [SecurID Privacy Statement](#).

Information we collect

Personal information that we collect about you includes the mobile phone number provided by you to your participating organization. No other personal information is collected, disclosed, or processed.

How we use your Information

Mobile phone numbers are used exclusively for fulfillment of SMS-based authentication services. Personal information will never be used for marketing or advertising purposes.

SecurID will send SMS to end users who have opted-in with their participating organization to receive one-time passcodes (OTP) to their mobile phone. Message frequency will vary based on product use. Standard message and data rates may apply. Reply HELP for help. Reply STOP to cancel. T-Mobile® is not liable for delayed or undeliverable messages. Supported carriers in the US include but are not limited to: AT&T Boost MetroPCS Sprint T-Mobile® U.S. Cellular® Verizon Wireless Virgin Mobile USA. International carriers will vary based on region.

This information is not and should not be construed as legal advice, assistance, or guidance. Users should seek advice from their legal counsel if they have questions regarding privacy laws.
